

**Allan Sanders says that he was always interested in drawing but when he decided to become a draughtsman he thought he should learn the skill properly! He is a skilled artist and photographer and many of the photos taken for this website are from Allan's camera.**

**Allan says that he doesn't like painting because you have to "*...clean up the mess after...*" so most of his artwork tends to be in pencil or pastel. The pages that follow show some of Allan's drawings followed by some of his photographs.**
