

Alison Hendrix has known Pam for a number of years and attended more than one of her classes over that time. She enjoys painting in acrylics and also drawing with pen or pencil. Although these are her *favourite* mediums she will have a go at any challenge to do with her art. Alison also dabbles in photography and photo manipulation.

Not only does Alison hang her art on the wall she also has a number of colourful tattoos that she is very proud of. As she will tell you, *"...some people spend money on wall paintings, I carry mine round on my skin."*
